INTRODUCTION

My name is Luís França, I am a 3rd year student, studying Computer Science and Engineering at the University of Minho. I am interested in various fields of computer science such as data science, cybersecurity, and web development (mainly back-end and databases). I am a very analytical person, I care that my tasks work properly, as well as the 'how' and 'why' they work.

I'm looking for an internship this summer to hone the skills I need to hit the job market and broaden my range of knowledge.

EDUCATION

BSc in Computer Science and Engineering 2022 – 2025
University of Minho - Braga, Portugal (expected end date)

EXTRACURRICULAR PROJECTS

Crypto Basket Predictor Hackathon Bugsbyte

- Development of a website that predicts and visualizes the future price of a crypto basket, using the Prophet machine learning algorithm.
- Full stack application with Vue.js for the frontend, Django for the backend, and a MySQL database.

ACADEMIC PROJECTS

Shift Manager Development of Software Systems

- Development of a three layer application with Java and MySQL.
- Software Lifecycle Planning - from requirements to implementation

Natural Catastrophe Rescue Application Artificial Intelligence

- Simulation of various vehicles in a natural catastrophe.
- Development of AI algorithms using Python.
- Conditions and algorithm heuristic that change over time.

SKILLS

Python / Django	★★★★☆
Machine Learning/AI	★★★★★
Data Analysis	★★★★★
Git/DevOps	★★★★☆
Docker	★★★☆☆
Javascript / Vue.js	★★★☆☆
C# / .NET	★★★★☆
SQL databases	★★★★☆
Java / OOP	★★★★★
Computer Networks	★★★★☆
Linux	★★★☆☆

LANGUAGES

🗣️ English · proficient
Portuguese · native

SOFT SKILLS

- Collaboration and working with teams
- Dedications and persistence
- Responsibility and constant Self-Improvement.

INTERESTS

- Gym and Bicycle Riding
- Watching Series and Movies of all categories
- Going out with friends
- Learning new things
